

How to use the extension clasp with folding lock

If your watch has a bracelet equipped with the extension clasp with folding lock, you can easily adjust the bracelet length by yourself. This is very useful when you wear the watch over a wetsuit or heavy winter clothing.

- ① Lift up the flap approximately 90°, then press it down further approximately 20° and hold it there.
 - * You may feel slight resistance, but doing this requires only a light force. Please do not push the flap down forcibly.
- ② Lightly pull the bracelet on the 6 o'clock side of the watch along the curved line of the bracelet.
 - * Again, doing this requires only a light force. Please do not pull the bracelet forcibly.
 - * The slider can be pulled out approximately 30 mm. Be careful not to pull it out beyond the limit mark inscribed on it.

- ③ Holding down the push button, lift up the clasp to release the buckle, then strap the watch on your wrist.
- ④ Close the clasp first (4-1) and then the flap (4-2).
- ⑤ With the hand which is not wearing the watch, adjust the length of the slider so that the watch fits well around your wrist.
